

AFTERSALES SERVICES

This section of Behband's services encompasses two stages for the offered machinery:

- During the sales process
- After sales and installation

In the initial stage and during the sales process, the services include:

- Regular collaboration and implementation planning
- Implementing and utilization of the purchased equipment
- Installation and operator training

Behband aftersales services include:

- Warranty coverage in accordance with the manufacturers' terms and conditions
- Periodic visits during the warranty period
- Servicing and repairs
- Supply of spare parts for a period of 10 years

If you have any further questions or require assistance, please feel free to contact us.
