

Protecting Quality Products

About Us

Packaging is critical to product differentiation and security in today's competitive era. Pioneering companies choose packaging strategies according to their desired market position. The new packaging trend is using quality straps that provide safety and beauty for the product at the same time. QStrap is a new brand of quality poly-propylene (PP) straps and is a new division of Behband Group of Companies, which is a family business dedicated to producing packaging straps for more than 3 decades.

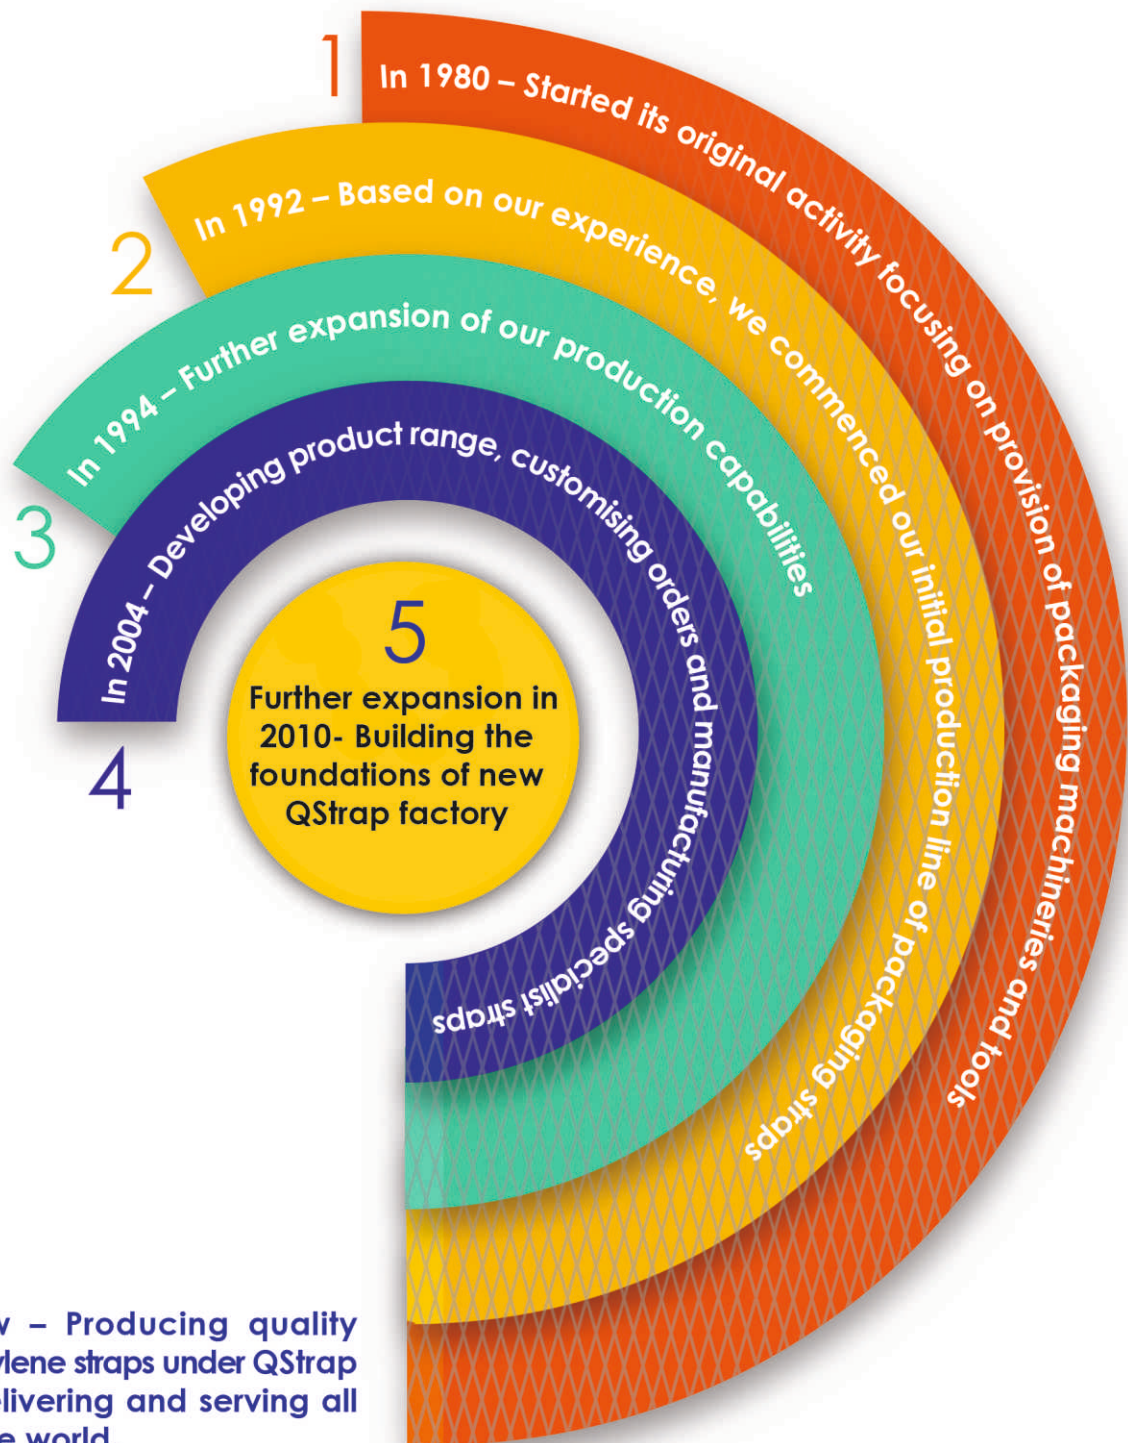

There are a number of reasons that you should make QStrap your choice:

- More than 3 decades of knowledge and experience in producing packaging products including straps
- Our founder's deep passion and dedication to packaging industry
- Relying on more than 100 expert human resources
- Applying state of the art European technology
- World class quality control processes
- 24 hours a day product support
- Actively involved in exporting our valued products
- Dedicating ourselves to help our customers achieve their goals.

We are focused on modern poly-propylene straps. Each of our factories are specialised on specific kind of straps, and therefore we bring you highest level of quality by Qstrap products. Our technical team are ready to provide any support services and quick response to customers around the world.

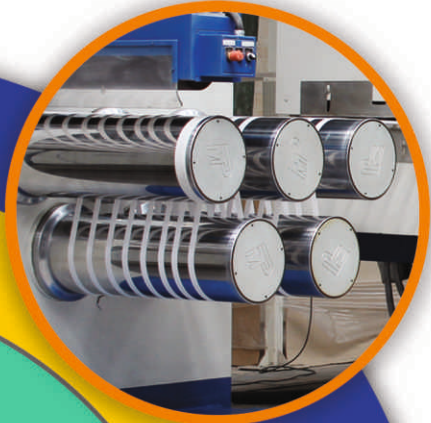

Our Family Business History
